

Mundekulla Sustainability Conference 2009

QUESTIONS FOR COMMUNITY REPRESENTATIVES

Each community will be given 1 hour each to share how their communities work according to the questions below. After this session the audience will gather in small sharing groups where they all get the chance to express their own thoughts and dreams about community life. The conference will end with a panel discussion where 1 representative from each community will participate. There is a possibility to use a video projector if you want to show pictures or films from your community.

Guiding questions to each community

1. When and How did your community first start out?
2. Is your community centred around a central idea or purpose? Which?
3. How are decisions made in your community?
4. What financial costs and earnings do you share in your community and how?
5. How does your community deal with conflicts?
6. What are some major obstacles that your community has overcome and how?
7. What is the most difficult issue facing your community at the moment?
8. In which way(s) is your community sustainable?
9. What prospects do you see for your community in ten years / in the future?
